or location. In the future, the plant will probably restrict itself to the production of antibiotics and vitamins.

3. The Microbiological Institute at Zeiss-Schott has now assumed the larger share of the scientific preparatory work.
4. The 1953 production plan for Jenapharm was filled by only 92.3%.
5. The xanthocillin of the Arzneimittelwerke, Dresden-Radebeul was developed at Jenapharm. However, it could not be manufactured at Jenapharm because of the lack of space.
